Addendum No. 2  
Issued: December 30, 2013

This Addendum No. 2 is issued and hereby published on the DGS website on December 30, 2013. The following list of questions and answers are being provided for information purposes only.

**Question # 1**

Can I get a clean copy of the RFQ or Bill of Materials in Word format vs. scanned in PDF file?

**Answer**

See attached **Attachment A**, Equipment List in Word format.

**Question # 2**

Is there a Statement of Work (SOW) associated with this bill of materials that we can reference to determine exactly what the customer expects?

**Answer**

See the attached **Attachment B**, Scope of Work.

**Question # 3**

Is there a site visit planned for this room or can the customer provide digital pictures of the front/back views of the room?

**Answer**

Yes, a site visit will be held on Tuesday, January 7, 2014 at 10:00am at One Judiciary Square, 441 4<sup>th</sup> Street NW, Suite 1107, Washington, DC 20001.

**Question # 4**

What are the dimensions of the room and will the AV rack be in the room or in a closet nearby to the space?

**Answer**

The Government doesn't have an accurate measurement of the room and will entertain a site visit on January 7, 2014 at 10am so that all vendors can measure Suite 1107 and assess the A/V rack located in the suite.

**Question # 5**

How tall is the floor standing rack?

**Answer**

The two (2) current A/V racks are seven (7) foot enclosures.

**Question # 6**

Dimensions of the GF electric screens?

**Answer**

The Government requires that you spell out each acronym for accuracy and clarity; therefore this question cannot be answered.

**Question # 7**

Do the screens have LV switches in place so as to be tied to the room control system?

**Answer**

No, they are not in place.

**Question # 8**

Would the customer prefer a newer PRO3 control unit vs. the older PRO2 device in the bill of materials?

**Answer**

The Department requires the Equipment on the List that was provided in the IFB.

**Question # 9**

I do not see a DM Ethernet card for the PRO2 which comes standard with the PRO3 device. (This Ethernet connection may be required to connect in the DM switch to the control processor).

**Answer**

The Department requires the Equipment on the List that was provided in the IFB.

**Question # 10**

I see four (4) DM receivers here in the bill of materials and only three (3) projectors in the bill of materials. Will there be a 4<sup>th</sup> display in the space and what will it be here?

**Answer**

There will be three (3) projectors with this solution set. The forth receiver is for a swap due to possible failure or scalability at a later date.

**Question # 11**

Would the customer be interested in a Sharp 90 inch LCD-LED display in place of some of the projectors in the room? (They work better in the brighter lights of a VTC room).

**Answer**

The Department requires the Equipment on the List that provided in the IFB.

**Question # 12**

Would the customer be interested in an Epson solution for the projectors?

**Answer**

The Department requires the Equipment on the List that was provided in the IFB by the government.

**Question # 13**

I see seven (7) transmitter boxes. Will these be mounted under a table for laptop connections (or 3 camera feeds) and is there a conduit (and how much) in place to run wire to the AV rack with DM switch?

**Answer**

Connections are already at the table.

**Question # 14**

Is there a lectern within the room for the 12 inch microphone and the rest of the microphones will be mounted into the table?

**Answer**

This will be confirmed during the walkthrough on January 7<sup>th</sup>, 2014

**Question # 15**

Will the customer be drilling the holes in the table for the microphones or do they prefer ceiling based set up?

**Answer**

This will be confirmed during the walkthrough on January 7<sup>th</sup>, 2014
